## experience

### RESERVE

Software Engineer, NYC | Mar 2016 - Present

#### Reserve Table Management

- Develop company's flagship restaurant table management service using ReactJS, Redux, ImmutableJS, Ramda, Webpack v2, and PostCSS.
- Collaborated with Design and Product team to launch the app in Q1 2017; currently has 200 paying users.

#### Reserve.com

- Lead development of redesigned **Reserve.com** using AngularJS, Gulp, Sass.

### TIGERSPIKE

Software Engineer, NYC | Oct 2014 - Mar 2016

- Work within waterfall and agile methodologies on fully responsive web apps with a small team of designers, developers, and product managers.
- Lead development with front-end frameworks, driving use of AngularJS and Node.js within projects.
- Work closely with clients, helping them understand technical aspects of projects.
- Consult on new business ideas and products.

### FREELANCE

Software Engineer, NYC | May 2014 - Present

- Create fully designed websites and web apps for various clients.
- Notable projects:
  - Lawrence Leibowitz, DDS** ([drleibowitz.com](http://drleibowitz.com)) - Responsive website for a dental practice in Virginia Beach. Built with ReactJS/Redux and utilizing a CMS back-end.
  - Wolf Lacrosse** ([wolflax.com](http://wolflax.com)) - Responsive eCommerce website with admin back-end for Wolf Lacrosse's national summer camps. [RoR, jQuery, Sass, Stripe]
  - Regan Premier Properties** ([reganpremier.com](http://reganpremier.com)) - Responsive website for a San Diego Real Estate Broker that integrates with an MLS service and offers a custom admin CMS. [RoR, jQuery, Sass, RETS]

### JEWISH FEDERATIONS OF NORTH AMERICA

Senior Program Manager, NYC | Apr 2011 - Feb 2014

- Assembled and administered a website for volunteer leadership; developed and marketed techniques to better engage viewers.
- Planned, organized and supervised a team of seven to lead an annual trip to Israel, engaging hundreds of young adults each year and raising over \$200,000.
